Students Still Searching for Sponsors for the School Year 2015-16

These are just a few of the children that are still searching for sponsors for this school year. If you would like to give the gift of education to a child, please return the enclosed form. If you have already done so, thanks a million times over.

The Responsibility school in Mexico is located in a small community with a population of 2000. The dirt floor homes are built mostly on top of a landfill, or better known as the old city garbage dump. Many the parents now compute an hour in the backs of old pickup trucks to the new city dump to scavenge the trash looking for whatever may be worth a penny at a recycling plant. On a good day, mom just might find a toy for her children or clothing for herself. Your continued support is needed to send 70 children to our Tijuana kindergarten and another 700 students to our Nicaragua school. However you can help will be appreciated whether it is sending a child to school for just one day or the entire year.
